Sound Sense on the Labor Question.

1. Work is a blessing, not a curse.
2. The greatest Philanthropist is he who furnishes employment to others.
3. Aggregations of capital are beneficial to society as they reduce the cost of production.
4. Capital and labor are partners, but capitalists and laborers are not.
5. Labor must choose between the certainty of wages and vicissitude and risks of profit and loss.
6. Making chosen wages as its part, when wages are paid the able gatherers of capital cease except such as pertains to the domain of private conscience.
7. The obligation of capital to share profits with labor are no greater than those of others to share their surplus with the needy.
8. No man can show authority for dictating to capital its duty to labor when agreed wages have been paid.
9. Honesty, industry and thrift are the basic element of wealth.
10. The capitalists of to-day were the wage earners of yesterday and the laborer of to-day can become the capitalist of to-morrow.
11. The mounds of property are dissipated by the sure laws of nature hence the state does not need to assist in the work.
12. It is not a crime to acquire and to own. It may be a crime not to do so if one has the ability. Acquiring must not be confounded with avarice.

Finally man has an inherent and inalienable right to labor and this right must not be interfered with by Unions or strikers.

### Vaccination.

The question of compelling parents to get their children vaccinated before they will be allowed to attend school is one that the board of health of this state have a fight on its hands. From the spirit manifested, the people are not going to submit to Dr. T. B. Beatty's decree unless the courts of the state say it must be carried out. From present indication, the schools will be quite thinly attended when the order goes into effect. Whether a child that is entitled to its share of tax can be kept out of school when it is healthy, clean, and in every other way in a condition to attend by an edict of any person, is a question in this free land of ours which the health board of the state is squaring up against. The vaccination theory of Dr. Beatty has two sides to it, and the people will not give up until both have been heard.

The long looked for electric light made its appearance last night. The streets, and many of the business places were a blaze, giving our city a pleasing appearance, and giving the little folks much delight as they gazed upon the brilliant light.

## Scrofula

This root of many evils—

Glandular tumors, abscesses, pimples and other cutaneous eruptions, sore ears, inflamed eyelids, rickets, dyspepsia, catarrh, readiness to catch cold and inability to get rid of it easily, paleness, nervousness and other ailments including the consumptive tendency—Can be completely and permanently removed, no matter how young or old the sufferer.

Hood's Sarsaparilla was given the daughter of Silas Vernoy, Waverling, N. Y., who had broken out with scrofula sores all over her face and head. The first bottle helped her and when she had taken six the sores were all healed and her face was smooth. He writes that she has never shown any sign of the scrofula returning.

Will Advertise The West.

"After considerable thought on the subject I have decided to make a feature in our advertising in the future of the great resorts of the West. Having come from the West myself, I am, naturally, greatly interested in everything that concerns the development of that wonderful region, and am glad if I can, even in a small way, aid in that development. I have, therefore, adopted a plan for advertising in magazines and the daily press America's great resorts, in which I have called particular attention to the West, and have asked readers of the 'ad' to write for a catalogue of our 'four-track series' by which they will be able to get more detailed information in regard to them. I am going to continue this plan, and at my principal offices in New York and Brooklyn, as well as at Albany, Troy, Utica, Syracuse, Rochester, Buffalo, Niagara Falls and other important stations, we shall endeavor to keep always on hand supplies of the old and books of the various lines interested in travel to the West, with a view to giving persons making inquiries regard to them such information as will be most useful to them in forming their plans for a trip."—From the Rocky Mountain News, Denver, Col.

FOR THE THROAT

DON'T NEGLECT the throat, an open avenue by which any number of diseases can find their way into the system. It must be remembered that the throat is very susceptible to attack, particularly in this climate, and this fact makes it doubly true that an ounce of prevention is better than a pound of cure. The moment there's anything the matter with your throat, however slight the trouble, attend to it instantly. One of the best remedies for a sore throat is our Diphtheria Remedy. As this medicine may be needed at any time it should always be at hand. Don't forget that our prescription department is the best in Lehi.
